# FOR OUTDOOR GARDEN

## SUN SHADE SAIL

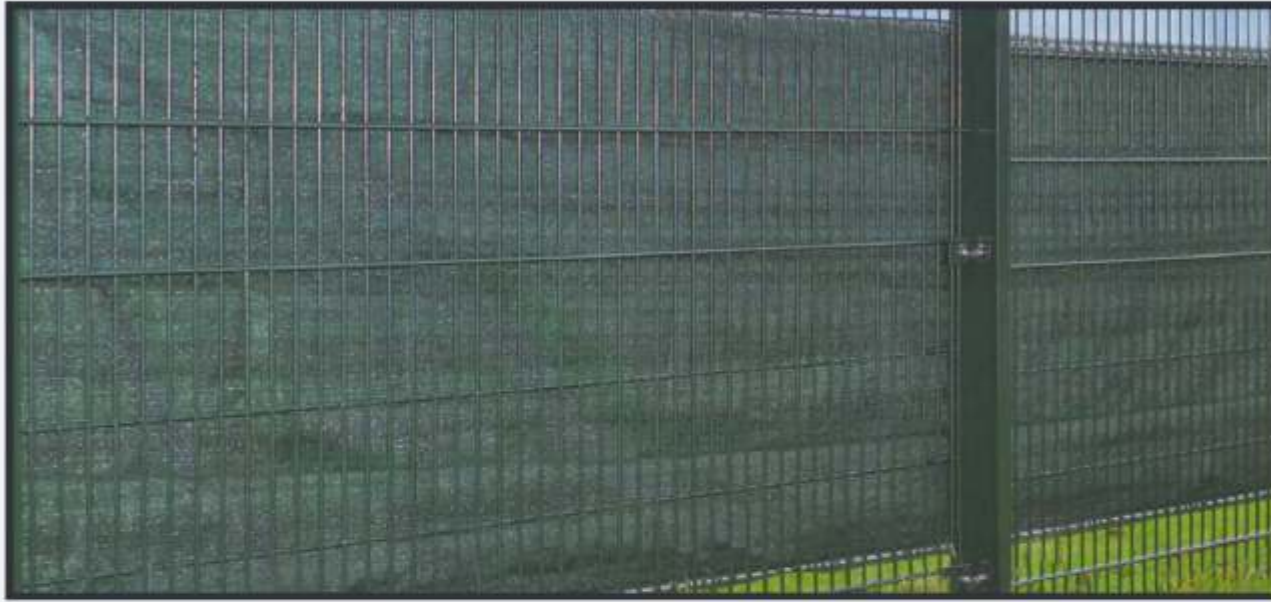

A shade sail is a device to create outdoor shade based on the basic technology as a ship's sail. Shade sails use a flexible membrane tensioned between several anchor points. While generally installed permanently, they are easy to set up. They are usually provided above public gathering places such as seating areas and playgrounds in countries where strong sun radiation makes prolonged stays in the open sun unpleasant or dangerous due to sunburn and skin cancer risk.

# FOR OUTDOOR GARDEN

## FENCE BLIND **HDPE**

An HDPE fence screen is likely a privacy screen or windscreen made from High-Density Polyethylene material.

### key features for HDPE fence screens:

- Privacy: HDPE fence screens are often used to create a barrier that enhances privacy by obstructing the view from the outside.
- Prices can vary depending on the size, thickness, and brand of the HDPE fence screen.

## BALCONY BLIND

When choosing a balcony screen, consider factors such as the climate of your location, the purpose of the screen (privacy, wind protection, etc.),

# OUTDOOR Bamboo/Reed Fence FOR GARDEN

Enhance your garden with our Bamboo/Reed Fence – a perfect blend of nature and privacy. Durable, eco-friendly, and stylish, it adds a touch of natural beauty to your outdoor space.

BAMBOO ROLLUP BLIND

## DOOR CANOPY

A door canopy is an overhead shelter that provides protection to a door or entrance from the elements, such as rain, snow, and sun.

### FEATURE:

- **Weather Protection:** The primary function of a door canopy is to shield the entrance from adverse weather conditions. It helps keep rain, snow, and direct sunlight away from the door, preventing damage and maintaining a dry entryway.
- **Light Transmission:** Canopies are designed to allow natural light to filter through while still providing protection. This is especially useful for maintaining a well-lit entrance.
