Since 1956, we are the only one Factory and Exporter who professionally produces the highest quality Bamboo Blind in Taiwan area.

The quality of our Bamboo Blind is totally different from that Made in China or other countries.

The specialty of our Bamboo Blind made in Taiwan is as below:

- (1) We use Taiwan local Makino Bamboo to process Bamboo Blind. Makino Bamboo is the best quality bamboo material in the world. It is the least easy to borers.
- (2) We use Taiwan local Bamboo material to process Bamboo Outside Skin Blind (Turtle Shell Bamboo Blind). The surface of our blind is the most smooth and bright. It is in much better looking than the Bamboo Outside Skin Blind made in China or other countries.
- (3) Our Burnt Skin Bamboo Blind is the only one in the world using standard process (by mixing fine sand and water to put on bamboo to burn the pattern), which can process the most beautiful pattern.
